

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTE BY THE TRUSTEES.

THE Nevins Memorial was founded in memory of the late David Nevins, who was born in Salem, N.H., Dec. 12, 1809, but was brought to Methuen by his parents at an early age, and passed here the years of his childhood. In his later years he assumed the duties of a citizen, and here at the family homestead he was seized with the illness which, on the 19th of March, 1881, unexpectedly closed his active and useful career.

Desiring to promote the intellectual and moral well-being of the community whose material interests had been so greatly advanced by his business sagacity and energy, it was his expressed intention to found, during his lifetime, an institution similar in scope to that of this Memorial. His sudden decease prevented his execution of this design, but the purpose he had declared was at once taken up by his widow and sons, and the Nevins Memorial Building was erected upon the site chosen and purchased for that use some years before his death.

The building was planned, and its construction supervised, by Mr. Samuel J. F. Thayer, architect, of Boston; ground for its erection being broken March 27, 1883, and the completed structure first opened to the public June 11, 1884. It contains a public hall, ample in size and beautiful in decoration, a library, waiting and reading rooms well adapted to their respective uses, and suitable rooms for the trustees and librarian.

The government of the Memorial is vested in a board of seven trustees, five of whom, Mrs. Eliza S. Nevins and Messrs. David Nevins, Henry C. Nevins, Jacob Emerson, and John H. Morse, were incorporated by the Massachusetts legislature of 1885 as permanent members. The two additional members are chosen by the town of Methuen for the term of two years, Dr. George E. Woodbury and Mr. James Ingalls being the present elective members.

When experience shall have shown what amount is needed for the proper maintenance of the Memorial, it is the design of the founders to make an endowment sufficient to render it entirely self-supporting.

The library comprises nearly ten thousand volumes of standard works, carefully selected, and covering a wide range of general literature and special topics. To Miss Ames was intrusted its entire organization, including the selection of the books, the details of classification and arrangement, and the preparation of the catalogue. We feel confident that the result of her labors will not only facilitate the use of the library for general readers, but will be found of particular advantage to those pursuing a systematic course of reading, or engaged in special studies. The end crowns the work.

Notes. A few suggestions may be serviceable to students who wish to take a course of historical reading.

In the above list the general historians are Green, Knight, Hume, Lingard, Turner, White, Dickens, and Yonge. Hume's work, the standard authority for nearly a century, is noted more for style than accuracy. Lingard, the Roman Catholic historian, covers the same period as Hume, but writes with more care and ability. Knight's history is deservedly popular and will satisfy the general reader, but for students, the most thorough work yet written is Green's History of the English people. The student's Hume, Green's Short history, and White's England are excellent compendiums, and young people will be much interested in the entertaining narratives of Dickens and Miss Yonge. For works of reference see Adams's Manual of historical literature, Low and Pulling's Dictionary of English history, and the Annals of England. The latter work contains a chronological list of events from B. C. 55 to A. D. 1714, and a bibliography of early writers. See also a concise historical summary in the first three chapters of Macaulay's England.

The early history of Britain, including the Roman era, is found in the opening chapters of Knight, Lingard, and Turner, in Giles's Six old English chronicles, Wright's Celt, Roman, and Saxon, and Freeman's Old English history. See also chapters in Nicholas's Pedigree of the English people, Disraeli's paper on Britain and the Britons [v. 1 of 1146.18], Freeman's essay on the mythical and romantic elements in English history [v. 1 of 1328.19], and references under Arthur, mythical king of Britain.

For the Saxon period, 449-1066, the most elaborate history is by Turner [v. 1-3 of 134.19], but Palgrave's work is later and more valuable. Green's Making of England and Conquest of England, the first volumes of Knight and Lingard, Freeman's Old English history and the first two volumes of his Norman conquest, contain full and reliable accounts of this period. Consult also the opening chapters of Stubbs's Constitutional history, the Anglo-Saxon chronicle, the last chapters of Wright's Celt, Roman, and Saxon, and the references under Alfred the great, Anglo-Saxons, Edward the confessor, and Harold.

For England under the Normans, 1066-1154, see Freeman's scholarly history of the Norman conquest, supplemented by his Reign of William Rufus and accession of Henry I. Lingard's England, vol. 1-2, the last two volumes of Palgrave's Normandy and England, Green's Conquest of England, Stubbs's Constitutional history, vol. 1, and the last part of the Anglo-Saxon chronicle will be useful in the study of this period. See also Johnson's Normans in Europe, ch. 12-17, Strickland's Queens, vol. 1, Yonge's Cameos, vol. 1, and references under William I, William Rufus, Henry I, Stephen, and Anselm.

The Plantagenet period, which includes the houses of Lancaster and York, extends from 1154 to 1485. After the accounts in the general histories of Knight, Lingard, and Green, let the student read Stubbs's Early Plantagenets, and follow it with Warburton's Edward III and Gairdner's Lancaster and York. For special references to the early Plantagenets see Henry II, Becket, Richard I, Crusades, John, Henry III, Edward I, II, and III, Edward the black prince, and Richard II. For the houses of Lancaster and York, see, besides Gairdner, Edgar's Wars of the roses, Brougham's England under the house of Lancaster, Yonge's Cameos, vol. 2-3, and references under Henry IV, V, and VI, Margaret of Anjou, Edward IV and V, and Richard III. The lives of the queens will be found in Strickland's first two volumes. For the constitutional history see Stubbs's last two volumes. In connection with this period, Shakespeare's historical dramas must not be forgotten.

ENGLAND. *History, general and epochal, continued.*

The Tudor period, 1485-1603, is covered by Green's English people, vol. 2, Knight's England, vol. 2-3, and by Froude's full and valuable history. The student should also consult Hallam's Constitutional history, vol. 1, and Campbell's Lord chancellors, vol. 1-3. Special references to the successive reigns will be found under Henry VII, Henry VIII, Edward VI, Mary, and Elizabeth. The biographies of such noted persons as More, Wolsey, Anne Boleyn, Mary queen of Scots, Shakespeare, Sir Philip Sidney, and Raleigh should be read in connection with the history of this period. See also Geikie's English reformation.

The Stuart period, 1603-1714, including the commonwealth and revolution of 1688, may be followed in the general histories of Knight, Green, and Lingard, while special references will be found under James I, Charles I, Cromwell, Charles II, James II, Mary II, William of Orange, and Anne. Gardiner's First two Stuarts, Cordery's King and commonwealth, Cromwell's Letters and speeches, Hale's Fall of the Stuarts, and Morris's Age of Anne, will be of special service to students. Macaulay's brilliant work covers the reigns of James II and William of Orange, and Stanhope follows with a critical history of the reign of Anne. For the biography of this period see Bayne's Chief actors in the puritan revolution, Forster's Statesmen of the commonwealth, Strickland's Queens, vol. 4-6, Lodge's Portraits, vol. 4-7, and the lives of Hampden, Pym, Henrietta Maria, Strafford, Laud, Cromwell, Milton, Earl of Clarendon, Duke of Marlborough, and others.

The house of Hanover, 1714-1885, is traced in Morris's Early Hanoverians to 1760, in Stanhope and Lecky to 1783, in Martineau's History to 1854, in Knight's England to 1867, in Molesworth to 1874, and in McCarthy's History of our own times to 1880. See also Doran's Queens of the house of Hanover, McCarthy's Four Georges and Epoch of reform, J. H. McCarthy's England under Gladstone, and special references under George I, II, III, and IV, William IV, and Victoria. The student of political history will also consult May's Constitutional history, Campbell's Lord chancellors and Lives of Lyndhurst and Brougham, and the biographies of eminent statesmen from Walpole to Gladstone.

The above is simply an outline course of English history. For fuller and more valuable notes, and thoughtful suggestions in regard to collateral reading, the student must consult Prof. C. K. Adams's Manual of historical literature.

Note. The following explanations and suggestions are offered for the assistance of students.

The general histories in the above collection are those by Michelet, Guizot, Kitchin, Jervis, and Yonge. Michelet's work, in the original, comes down to the revolution of 1789, but the translation ends with the year 1453. Guizot's popular history is thoughtfully written and will be exceedingly useful to students. Of the compendious histories, Masson's abridgment of Guizot is the best, although Lacombe, Kitchin, and Jervis are reliable authors. Miss Yonge's little book, as its title indicates, is designed especially for young people. In pursuing a course of general history, let the student consult Stephen's Lectures, Adams's Manual of historical literature, and Kitchin's summary of French history in the Encyclopædia Britannica, vol. 9.

The fullest history of early France, B. C. 50-A. D. 987, is Godwin's Ancient Gaul, but the condensed account by Guizot in his first volume is very satisfactory. See also Caesar's Commentaries, Stephen's first five lectures, Guizot's History of civilization, vol. 1-2, Palgrave's Normandy, vol. 1-2, and references under Charlemagne.

The history of feudal France, 987-1498, is traced in the general histories of Guizot, Jervis, and Kitchin. See also Guizot's History of civilization, vol. 2-3, Stephen's Lectures, vol. 1, Froissart's Chronicles, and references under Louis IX, Crusades, Jeanne Darc, Louis XI, Charles VIII, and Charles the bold.

For the period from the fall of feudalism to the revolution, including the religious wars, 1498-1789, the best account is found in Guizot's History, vol. 2-6. The condensed narrative by Masson, and Jervis's History, ch. 13-26, will satisfy the average student. See special references to the early part of this period under Francis I, Charles IX, Catherine de' Medici, Coligny, Huguenots, Reformation, Henry III, Henry IV, and Marie de Medici. For the history immediately preceding the revolution, consult Taine and Tocqueville, Martin's Decline of the monarchy, and the biographies of Louis XIII, Anne of Austria, Richelieu, Louis XIV, Louis XV, Louis XVI, Marie Antoinette, and many distinguished statesmen of the time.

The comprehensive histories of the revolution are by H. von Sybel, Thiers, Martin, Carlyle, and Abbott, but the compact works of Mignet and Morris will be most helpful to students. Chapters on the causes of the revolution will be found in Dyer's Modern Europe, vol. 4, Van Laun's Revolutionary epoch, vol. 1, and in Buckle's Civilization. Sybel's French revolution covers the years 1789-95, and is considered the best history of this period. Consult also Adams's Democracy and monarchy, Guizot's France, vol. 6, the last two volumes of Dyer's Modern Europe, and special references under Voltaire, Rousseau, Girondists, Louis XVI, Marie Antoinette,

FRANCE. History, general and epochal, continued.

Robespierre, Mirabeau, Charlotte Corday, Madame Roland, Lafayette, Napoleon I, and others. In fiction see Dickens's *Tale of two cities*, Hugo's *Ninety-three*, Erckmann-Chatrian's *Story of a peasant*, *Conscript*, and *Waterloo*, and Keddie's *Citoyenne Jacqueline*.

For the Napoleonic period, the fullest history is Thiers's *Consulate and empire*, but students will be satisfied with Martin's *Popular history*, vol. 1-2, and Guizot's *France*, vol. 7-8. Consult Iyer's *Modern Europe*, vol. 5, Alison's *Europe, 1789-1815*, the many histories of Napoleon I, particularly Lanfrey's *Napoleon*, and the biographies of Joseph Bonaparte, Josephine, Hortense, and others.

The history of the period from the fall of Napoleon I to the Franco-German war may be followed in Martin's *Popular history*, vol. 2-3. See also Guizot's *History of France*, vol. 8, Adams's *Democracy and monarchy*, Van Laun's *Revolutionary epoch*, vol. 2, Lamartine's *Restoration, 1814-30*, Louis Blanc's *Ten years, 1830-40*, and the histories of Louis xviii, Charles x, and Louis Philippe. For the later history of this period consult Lamartine's *Revolution of 1848*, the accounts of the *coup d'état* by Ténot and Maupas, and special references under Napoleon III.

The principal accounts of the Franco-German war are by Forbes, Blumé, Ollier, and Hozier, the last work being supplied with excellent battle maps. See also Hazen's *School and army*, Strauss's *Men who have made the new German empire*, Leighton's *Paris Commune*, Bowles's *Defence of Paris*, and graphic pictures of the war in the *Daily news*' correspondence.

For republican France let the student consult Simon's *Government of M. Thiers* and the biography of Thiers by Le Goff, King's French political leaders, Rae's *Men of the third republic*, and the *Statesman's Year-book* for 1885. References to recent and important reviews will be found in Foote's *Index to periodical literature*.

German music is further illustrated in Ferris's German composers, Crowest's Great tone-poets, Haweis's Music and morals, and in the biographies of Bach, Beethoven, Handel, Haydn, Mendelssohn, Mozart, Moscheles, Schubert, Schumann, Wagner, and Weber.

Note. The work of the German historian, Kohlrausch, is reliable, and covers the entire period from the earliest times to 1815. Lewis's popular history, founded on Dr. Müller's German people, comes down to the year 1874, and is the best condensed history for students. Baring-Gould treats particularly of German institutions and culture. The smaller histories by Sime, Yonge, and Taylor are designed for young people. See the important articles on German history and geography in the *Encyclopædia Britannica*, vol. 10, and Adams's *Manual of historical literature*.

The period before the reformation may be followed in the general histories of Lewis and Kohlrausch, and in Bryce's *Holy Roman empire*. See also references under Charlemagne, Frederick 1 (Barbarossa), Frederick 11, and Rudolf of Hapsburg. For the reformation, besides the general histories, see Robertson's Charles v, the histories of the reformation by Hæusser and Fisher, and references under Martin Luther.

For special works on the Thirty years' war, 1618-48, see Schiller, Gardiner, and Gindely. Chapters in Dyer's *Modern Europe*, vol. 3, and in the third volume of Wylie's *Protestantism*, treat of this period, and Motley gives a view of the causes of the war in his *John of Barneveld*. See also Stevens's *Gustavus Adolphus*.

Accounts of the Seven years' war, 1756-63, are found in Dyer's *Modern Europe*, vol. 4, and in the histories of Frederick the great by Carlyle, Brackenbury, and Longman. For the Seven weeks' war, 1866, see the works of Hozier and Wyatt, and for the Franco-German war, 1870-71, see France.

 Yonge, C. M. Young folks' history of Greece. [B. C. 884-A. D. 1875.] 663.29

Note. The elaborate histories of ancient Greece by Grote, Curtius, and Thirlwall are the most valuable for a critical course of study; but the general reader will be satisfied with the excellent compendium by Cox, which ends with the death of Alexander, or with Smith's *Student's Greece*, founded upon Grote, which is brought down to the Roman conquest, B. C. 146. Felton's *Greece* is a course of scholarly lectures on Greek history and culture, and the phases of social and religious life are thoroughly treated in the works of Guhl and Koner, Mahaffy, and Fustel de Coulanges. For the best works of reference see Smith's *Classical dictionary*, his *Greek and Roman antiquities*, and *Greek and Roman biography and mythology*. The histories by Bonner, Fyffe, and Miss Yonge, and Mahaffy's *Old Greek life*, are designed especially for young people.

The mythical and legendary history of Greece is given in the first volume of Thirlwall, and in Grote's first two volumes. See also Smith's *Greece*, chap. 1-5, Gladstone's *Juventus mundi*, and references under Homer, Troy, and Mythology. Young people will be interested in Kingsley's *Heroes*, Niebuhr's *Greek hero-stories*, and Hawthorne's *Tanglewood tales* and *Wonder-book*. Following the legendary history, the growth of the Grecian states from B. C. 776 to 500 may be traced in Curtius's *Greece*, vol. 1, in Grote's second and third volumes, and in Smith's *History*, chap. 6-14. The first volume of Smith's *Ancient history* treats of this period in a very able manner.

For the Persian wars, including the famous battles of Marathon, Thermopylæ, Salamis, and Plataea, B. C. 500-479, the earliest authority is Herodotus, who wrote soon after the close of this epoch. See also Grote's *Greece*, vol. 4-5, Smith's *Greece*, chap. 15-21, the second volume of Curtius, Smith's *Ancient history*, vol. 1, Thirlwall's *Greece*, vol. 2, Cox's *Greeks and Persians*, and King's *Famous and decisive battles*. The biographies of Cyrus the great, Darius the great, and Xerxes may be read in connection with the history of this period.

The history of the Athenian supremacy and Peloponnesian war, B. C. 478-404, is followed in Grote's *Greece*, vol. 5-8, in Thirlwall's *Greece*, vol. 2-4, in the third volume of Curtius, and in Smith's *Greece*, chap. 22-35. Some of the special works on this epoch are the important history of the Peloponnesian war by Thucydides, Lloyd's *Age of Pericles*, and Cox's *Athenian empire*. See also references under Socrates, and Plutarch's *Lives of Themistocles, Pericles, Alcibiades, Lysander, and Nicias*. For the Spartan and Theban supremacies, B. C. 403-360, consult Grote's *Greece*, vol. 8-10, the fourth volume of Curtius, and Smith's *Greece*, chap. 36-41. Sankey's *Spartan and Theban supremacies* and Xenophon's *Anabasis* and *Hellenics* will be especially useful to students. See also Smith's *Ancient history*, vol. 1, and Plutarch's *Lives of Agesilaus, Pelopidas, Dion, and Timoleon*.

GREECE. *History, biography, life and manners, continued.*

For the Macedonian empire, B. C. 359-146, see the last volumes of Grote and Curtius, Thirlwall's Greece, vol. 5-8, Curtius's Rise of the Macedonian empire, and references under Demosthenes, Philip of Macedon, and Alexander the great. The subsequent history of Greece, including the Roman domination, Byzantine empire, conquest by the Turks, and revolution may be followed in the last chapters of Cox's General history, but much more satisfactorily in the thorough and critical work of Finlay, which comes down to the year 1864. For the present condition of the country see Towle's Modern Greece, Sergeant's New Greece, the Statesman's Year-book for 1885, and the latest works on Greece under the heading *Travels*.
